The Jetta's manual transmission has two plugs for filling and emptying the transmission fluid, located on the side and bottom of the transmission case. If you are simply checking the level of oil in your transmission, start by removing the top filler plug on the side of the transmission. This is the plug that you add fluid to.

There is no dipstick on a manual transmission. On a manual tranny, you check the fluid by pulling the fill plug on the side of the transmission. The fluid is supposed to be even with the bottom of the fill plug hole. Gently stuck your finger in there and on a fully serviced trans. you will feel the fluid on your finger tip.

2004 Jetta 1.8T Transmission Fluid Check - Fixya

If you have a manual transmission, there is a plug on the side of the transmission that you remove to inspect the level.

Like spyder says in his reply, your fluid should not be low if it is not leaking.
hope this helps
