About the PASCO 21st Century Science Advanced Chemistry Guide AP Chemistry is a difficult course requiring students to master both lecture and laboratory material. The PASCO Advanced Chemistry Guide helps students make connections between what happens in the laboratory and the material in the lecture. The laboratory activities go

Advanced Chemistry Teacher Guide

The titration in this lab took place between the strong acid HCl and the strong base, NaOH. In strong acid/strong base titrations, the equivalence point is found at a pH of 7.00. In titrations with a weak base and a strong acid, the pH will always be less than 7 at the equivalence point because the

conjugate acid of the weak base lowers the pH.

AP Chemistry

AP Chemistry is a fairly lab-centric course, so you should be prepared to spend a lot of time doing hands-on experiments (at least 25 percent of the class!). The lab requirements are open to some interpretation, but, per the curriculum guidelines, courses must include at least 16 labs total, at least six of which are special "guided inquiry" labs.
