Westerners may have extended the use of the art-image beyond the purely representational, but in Ethiopia the power transmitted from art to believers is actually used to heal. "Art that Heals" examines a variety of colourful objects: church frescos from the 15th to the 20th century, processional crosses, drawings, codices, and icons - all used by the clergy of the Ethiopian Orthodox Church not as passive objects but as active forces to heal the sick.

Ethiopian medicine and talismanic art drew from Christian and Muslim traditions, including Arabic-language protective scrolls, examples of which can be found in the collection of the Metropolitan Museum. Healing scrolls likely originated during the Aksumite empire (ca. 1st-8th centuries), with several million in use by the nineteenth century. Despite their prevalence, the scrolls have drawn the ire of both political and religious leaders.

Ethiopian Healing Scrolls - The Metropolitan Museum of Art

Two AIM artists, a painter and a musician, visited her room bearing rocks for a medicine wheel, a traditional Native American artifact associated with healing. The girl had an elevated heart rate and low blood saturation—low levels of oxygen in her bloodstream—and was too weak and uncomfortable to paint a rock herself.
