## **747 - 400 Flight Crew Training Manual**

When multi-engine maintenance cannot be avoided during a single occasion, Boeing recommends that different maintenance personnel work on each engine and exercise added scrutiny. This added scrutiny may be as simple as redundant checks of work performed or as demanding as a nonrevenue flight to ensure the integrity of all systems.

The need to ferry a 5th engine mostly evolves from two situations: 1) a stranded 747-400 needs a spare engine. The spare is ferried to the stricken airliner strapped underneath the wing of another 747-400 or 2). a 747-400 that underwent emergency engine replacement (often leased or loaned from another carrier) while away from its base needs to ferry the unserviceable engine back to its home base where the faulty engine can be fully repaired.
