Education And Inequality In India
This book looks at the reproduction of social inequalities within the educational system in India, and how this is contested in different ways. It examines whether the concept of 'education for all' is just a mechanically conceived policy target to chasing enrolment and attendance or whether it is a larger social goal and a deeper political statement about the need for attacking entrenched social inequalities.

Educational inequality - Wikipedia

Gender inequality in India refers to health, education, economic and political inequalities between men and women in India. Various international gender inequality indices rank India differently on each of these factors, as well as on a composite basis, and these indices are controversial. Gender inequalities, and their social causes, impact India's sex ratio, women's health over their lifetimes, their educational attainment, and economic conditions.
