seat. Some riding mowers have a built-in safety system where the engine will shut off unless you are seated or have engaged the parking brake. Before you start the mower, make sure you are seated and able to reach all pedals and levers. Step 2, Press the brake. Look on the left side. The brake may be a pedal down by your left foot. On some mowers, the brake may

A conventional starter
is a powerful motor
which acts on the car's
flywheel - when the
key is turned, the
starter turns a large
ring gear on the
flywheel via a pinion
gear. The starter turns
the flywheel as the key
is turned, then when
the engine 'fires', and
