When you get the boat home, remove the air box cover and with the throttle in wide open position, spray fogging oil in the carbs. Remove plug wires and crank the motor a few revolutions. This will distribute the oil through the internals of the powerhead and protect them from corrosion while stored out of use.

The nameplate should contain a model number and a serial number. The model number will identify the year and certain details of that motor. 1980-Present: Evinrude outboards from 1980 to the present use a model number that can help determine the year and features of the motor. See the model number code here. Pre-1980: Evinrude outboards prior to 1980 do not have a consistent model number code.
