From either the clock screen or the desktop screen, click on the MioMap icon (the GPS unit in the upper left) Prior to unlocking your Mio GPS, you would be unable to save multiple routes and the default route.dat file normally saved in \My Documents\MioMap folder would be erased during a hard reset, making the Route Management menu feature a substantial add-on to your Mio C230!

## **Unlocking the Mio C230 - Version 3.3 with Route & Settings ...**

The Mio C230 is a very nice entry-level GPS. If you are looking for a budget unit, and like lots of options and menus, this could be a great unit for you. The only real downside for this type of user is the paltry one million POIs. However, if you want an intuitive, no hassle, easy to use unit, get a Garmin nuvi instead.

3. Select Use GPS time\* or Manual:  
When you select Use GPS time, the system will set date and time according to the GPS location. When you select Manual, the system will display the date and time setting screen. Use / to adjust the value of the selected field; press and repeat the step until all fields have been changed.

Looks like Mio finally officially announced the Mio c230. Post from GPSLodge Review by CNet As a note, I really do hate CNet's reviews in general. When they reviewed the c220, they gave it a bad score because of the screen. Well, the c230 has an improved screen AND it is the only low-end unit on the market with TTS.

Features I was looking for in a GPS unit that the MIO C230 has. 1. Text to speech. 2. Under \$200. 3. Touch screen. 4. Updates and firmware availability (video, mp3 media player, calculator features) 5. Pre-installed maps on the unit NOT on SD card. 6. Maps and POIs for Hawaii, Alaska, Puerto Rico and Canada.
