One Child Policy Research Paper

The one child policy was established in China in 1979 because the population was growing extremely fast. The one child policy is a law that prevents families from having more than one child. It only applies to the Han Chinese ethnic group, which makes up 90% of the Chinese population. Sibling-less parents are allowed to have two children.

One Child Policy Essay | Bartleby

Excerpt from Research Paper : China's One Child Policy Historically, it is noted that Mao Zedong, once a China president encouraged population growth which saw the population of China almost double during that period of his leadership. This led to overpopulation and the stretching of the social amenities and most importantly the economy. In order to address this challenge, the one -- child policy was introduced in China.
