It might be difficult to believe now, but whether DNA had anything to do with autism was open to question as late as 1977, when the first study of autism in twins was published. The sample size was small, but the results were nonetheless striking.

The Autistic Brain: Thinking Across the Spectrum - B&N ...

— Temple Grandin, *The Autistic Brain: Thinking Across the Spectrum*. 0 likes. Like "During meals, I was taught table manners, and I was not allowed to twirl my fork around over my head. The only time I could revert back to autism was for one hour after lunch. The rest of the day, I had to live in a nonrocking, nontwirling world."
